

Production & Supply Chain Manager

Full-time. Hethel - Norwich, UK.

Salary: Negotiable depending on experience

WATR

We are an innovative company founded on the principles of inclusiveness and that work should be meaningful, fulfilling and fun.

Our disruptive WATR water quality product is helping make the world of water a better place in areas as diverse as river water quality, industrial wastewater discharge monitoring, amenity water quality monitoring (fishing, bathing, surfing).

As part of our growth strategy, we are recruiting an experienced Production Manager & Supply Chain Manager.

Job description

As our Production & Supply Chain Manager, you'll make sure goods and services are produced safely, cost-effectively and on time and that they meet the required quality standards.

This will include sourcing materials and overseeing the production team.

Primary objective

Oversee the production and delivery of our Smart Monitoring Devices.

Key skills, attitudes and duties

As a Production & Supply Chain Manager, you'll oversee the production process, coordinating all production activities and operations. You'll need to:

- Plan and draw up a production schedule
- Decide on and order the resources that are required and ensure stock levels remain adequate
- Ensure systems are in place to effectively manage stock levels and order numbers
- Liaise and source supply chain both in the UK and abroad
- Select equipment and take responsibility for its maintenance
- Set quality standards

- Ensure that the production will be cost effective by estimating costs and negotiating and agreeing budgets with both clients and managers
- Monitor the production processes and adjust schedules as needed
- Monitor productivity rates and product standards and implement quality control programmes
- Organise the repair of any damaged equipment
- Ensure and implement audits of suppliers to ensure they are meeting our Modern Day Slavery policy
- Liaise with different departments, teams and companies, e.g. suppliers, managers, clients
- Ensure that health and safety guidelines are followed at all times
- Ensure customer orders are completed on time and to budget and that quality standards and targets are met
- Work with managers to implement the company's policies and goals
- Collate and analyse data, putting together production reports for both factory managers and customers
- Supervise and motivate a team of workers
- Review worker performance and identify training needs.

Experience

- 3+ years of experience as a Production and Supply Chain Manager
- Organisation and attention to detail are necessary for this role
- Problem-solving abilities and conflict management
- Leadership abilities
- Must have experience with managing employees

Qualifications

- Bachelor's degree in Business Management or a related field would be considered a strong asset

Working conditions and environment

You will work from our premises at Hethel Engineering Centre.

You will report directly to our CEO.

Package

- 31 Days holiday per year inc bank holidays.

- Company pension.
- Competitive Salary.
- Free gym membership (Location dependant)
